The messages in both male and female voices on this recording have been processed to deliver up to 2000 clear affirmations per hour. These strong, clear messages were recorded just slightly below the level of the sound format, using a computer processor, to ensure the strongest saturation of subliminal messages. Each message is embedded in the music so precisely that you don't consciously hear it, yet they are well within the range of hearing to strongly register on the brain.

Because of our high saturation of subliminal messages you may occasionally hear some of the affirmations slightly bleeding through the music or nature sounds. This is your assurance that you are getting strong subliminal messages in this recording. This subliminal program also takes advantage of the brain's receptivity to both emotional and logical messages to activate both brain hemispheres – this assures complete absorption of the messages for the changes and improvement that you want. Play this program softly in the background any time day or night, while you are working, driving, reading, learning, eating or even sleeping. Listen to the entire recording at least once a day or more if possible. The more you listen, the greater the effect.
